

Course Introduction

[Desai Management Consulting](#) and partner [Conceptia, Ltd.](#) are hosting an on-line training class for “**Leading A Scaled Agile Framework**”. Attendees will gain the knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®) and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps (Development Operations).

Participants in the class gain insights into mastering Business Agility in order to thrive in the competitive market. They discuss how to establish team and technical agility and organize and re-organize around the flow of value. They also learn and practice the skills for supporting and executing PI Planning events and coordinating multiple Agile Release Trains (ARTs). Participants in the class explore the importance of adopting a customer-centric mindset and design thinking approach to agile product delivery. Learners also develop an understanding for implementing a Lean Portfolio Management function in their enterprise.

You will learn how to:

- Lead the transformation to Business Agility with SAFe®
- Become a Lean-Agile Leader
- Understand customer needs with Design Thinking
- Enable Agile Product Delivery
- Implement Lean Portfolio Management

Attending the class prepares individuals to take the exam and become a certified SAFe® Agilist (SA).
